DETAILED ACTION

This action is in response to Amendment filed January 5, 2006. Claims 1, 2, 9-12 and 18 have been amended and claims 19 and 20 have been added as requested by the applicant.

Response to Arguments

Applicant's arguments, see Amendment, filed January 5, 2006, with respect to claims 1 and 11 have been fully considered and are persuasive. The rejection of claims 1 and 11 has been withdrawn. Applicant argued that the prior art failed to teach or suggest the inner ring and the outer ring configured to move along the optical axis of the lens barrel without relative axial movement between the two rings. The examiner agrees, the prior art of record has rings that have relative movement between them in the axial direction.

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 11, the prior art of record fails to teach or suggest a light shielding structure of a lens barrel including an inner ring and outer ring so that the inner ring rotates relative to the outer ring, both rings configured to move along the optical axis with no

axial movement between the two rings; an inner flange wall at the front end of the inner ring and a first annular groove on a rear surface of the inner flange wall with the first annular groove centered on the optical axis; a second annular groove provided on an inner peripheral surface of the outer ring and a light shielding ring including a cylindrical portion centered about the optical axis and an outer flange extending radially outward from the rear end of the cylindrical portion so that the cylindrical portion extends into the first annular groove to slide relative to the first annular groove and the outer flange extends into the second annular groove to slide relative to the second annular groove.

The remaining claims are dependent on claims 1 and 11 and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joshua L. Pritchett whose telephone number is 571-272-2318. The examiner can normally be reached on Monday - Friday 7:00 - 3:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Drew A. Dunn can be reached on 571-272-2312. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
